EDUCATION

Bhagwan Parshuram Institute of Technology

B.Tech in Information Technology

New Delhi

2022 – 2026

EXPERIENCE

Senior Marketing Ambassador

October 2022 – 2025

Monster Energy

Delhi

- Led 30+ monthly and quarterly event activations, aligning campus promotions with regional brand marketing objectives.
- Coordinated cross-functional teams of 10–15 ambassadors, interns, and brand managers, improving execution efficiency and on-time delivery.
- Managed end-to-end event logistics, including staffing, sampling strategy, and inventory tracking.
- Produced post-event performance reports tracking KPIs, engagement rates, and ROI, driving 15–20% campaign optimization improvements.
- Increased on-campus brand visibility and consumer engagement by 25% through targeted sampling and audience activation strategies.

PROJECTS

DeepFashionTagger | *Python, Flask, Tensorflow*

2025

- Engineered a deep learning system for fashion attribute and category tagging, enabling multi-attribute image classification achieving 79% test accuracy using optimized training cycles on the Fashion Product Images dataset.
- Developed a Flask-based web interface for real-time fashion image uploads and attribute inference, reducing processing latency to under 0.7 seconds and increasing user engagement by 35%.
- Implemented preprocessing, augmentation, batching, and evaluation pipelines to ensure reproducible, production-ready ML workflows.

Airbnb NYC Exploratory Data Analysis | *Python*

2025

- Conducted exploratory data analysis on 49k+ Airbnb listings to uncover pricing trends, availability patterns, and host behavior.
- Built 20+ visualizations (heatmaps, pair plots, multivariate charts) using a structured UBM (Univariate–Bivariate–Multivariate) approach.
- Applied data cleaning, aggregation, and feature engineering techniques to enhance analytical depth and dataset quality.

CustomQR | *Python*

2024

- Developed a Python-based QR code generator with Tkinter, supporting customizable color themes and URL encoding, while also improving code readability score by 20%.
- Enhanced UI using `ttkbootstrap` components to deliver a modern and intuitive user experience.
- Added real-time QR preview, export support, and optimized rendering—resulting in a 40% improvement in interaction efficiency.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS

Libraries & Frameworks: React, Node.js, TensorFlow, Flask, OpenCV, FastAPI, pandas, NumPy, Matplotlib

Developer Tools: Git, Docker, Google Cloud Platform, VS Code, PyCharm, GitHub, Figma, Notion
